

DEADLINE® PYRETHRUM SPRAY

For professional use only.

For the control of flies, wasps, fleas, beetles, bedbugs, cockroaches, moths, ants and booklice in industrial/commercial premises such as food factories, hotels and hospitals (but not occupied ward areas) and in domestic premises. Product may be applied to hard porous and hard non-porous surfaces but is not for use on clothing or bedding.

DIRECTIONS FOR USE: Do not spray in the immediate vicinity of naked lights, hotplates, electric bulbs etc. Very lightly spray walls, ceilings and other surfaces at a rate of 1 litre per 100 square metres. For cockroach control: apply 1 litre of product per 50 square metres. Use a paint brush or roller where localised treatment is required. Treat all insect harboursages and breeding sites thoroughly.

FOR FOOD PREPARATION AND STORAGE/EATING AREAS: Before use, remove all exposed foodstuffs, all dishes and utensils and cover places where food is prepared, eaten or stored. Remove or cover fish tanks. After use, thoroughly ventilate treated areas. Clean up thoroughly all areas/surfaces before processing/serving resumes.

STATUTORY CONDITIONS OF APPROVAL RELATING TO USE:

FOR USE ONLY AS AN INSECTICIDE. FOR USE ONLY BY PROFESSIONAL OPERATORS. Application rate: Apply at the rate of 1 litre per 100 square metres. For cockroach control: apply 1 litre of product per 50 square metres. Users must comply in full with all their legal responsibilities under the Control of Pesticides Regulations 1986 (as amended), including complying with all Conditions of Approval.

READ ALL PRECAUTIONS BEFORE USE

HSE No. 10718-GB

PRECAUTIONS: To avoid risks to human, animal health and the environment, comply with the Instructions for use. HAZARDOUS TO BEES. Cover all water storage tanks before application. Do not apply directly to animals. Do not apply to clothing and bedding. Do not contaminate foodstuffs, eating utensils or food contact surfaces. Exclude animals during application. Unprotected persons and animals should be kept away from treated areas until surfaces are dry. Wash hands and exposed skin before meals and after use. This material and its container must be disposed of in a safe way. Keep in a safe place. Action should be taken to prevent foraging bees gaining access to treated nests, preferably by removing the combs or blocking the nest entrance. The COSHH (Control of Substances Hazardous to Health) Regulations 2002 (as amended) apply to the use of this product at work. Avoid excessive contamination of coveralls. Not to be used on pet bedding, pet sleeping quarters or where pets frequently lie. All bats are protected under the Wildlife and Countryside Act 1981. Before treating any structure used by bats, consult Natural England, NatureScot or the Natural Resources Wales.

PLEASE NOTE: Can be toxic to cats, so ensure all instructions are read before use.

CONTAINS: CHRYSANTHEMUM CINERARIAEFOLIUM, EXTRACT FROM OPEN AND MATURE FLOWERS OF TANACETUM CINERARIIFOLIUM OBTAINED WITH SUPERCritical CARBON DIOXIDE 0.075% W/W (0.75g/kg).

Use biocides safely and sustainably. This product should be used in accordance with the product label. Medical professionals should contact the National Poisons Information Service (www.npis.org) for further advice.
